

MUTT AND JEFF HAVE REALLY GONE ON A VACATION.

BY "BUD" FISHER

New York, Aug. 10.—
Dear Mr. and Mrs. Fisher and the dog.
Little Jeff and I
are going to have a vacation for himself. Now we can't do
what Tom has anything on us. He may
have a few more than little Jeff under his
hand but what's the diff?
Please see doctor twice or eight days.
We are going on our vacation and we don't
care who knows it. It's going to be a
regular vacation at that. We are going to
have fishing, auto, fishing, auto, what huts and
in fact everything that goes to make a
vacation.
However you will hear from us once in
a while. We will track the first now and
then just so you won't forget us.
With the few words we will now leave
you flat.
Mutt and Jeff

THE WANT AD SEES MORE PEOPLE IN ONE DAY THAN YOU CAN SEE IN A MONTH**NOTED NATIVE IS ANOTHER CURE FOR DEAD AT ROSWELL**Special Correspondence to the Herald
Roswell, N. M., Aug. 10.—John Pas
Torres, a native of fifty-eight sum-
mers, died at Tumie yesterday morn-
ing after a short illness.Torres leaves more than fifty grand-
children, all citizens of Roswell.

He was one of the most prominent

native citizens of the valley in recent

years, and the leading one among the

early cowboys and soldiers during the

war days.

Many of the events that have transpired on New Mexico soil, have seen

Torres in the rank fighting for the per-
petration of his kind, and the develop-
ment of his native land.

During the troubles of Billy the Kid in Lincoln county he was a trusted

member of the "boys" who finally

captured the outlaw; during the capture

of Fort Lincoln, it was he who

was one of the volunteers.

He and his wife have lived in Lin-
coln and Chaves counties all their lives, and it is said of them that they

never were sued, never owned any

one, or never used in their lives rods on

a train.

Rooms 35-36 Barnett Block, Albuquerque.**WHITE PLAGUE**This One Comes from England
and Is Assuredly Proven
Infallible, but Who Would
Want to Try It?London, England, Aug. 10.—Follow-
ing on the heels of the report of the
total tuberculosis commission and
the annual conference of the National
Society for the Prevention of Tu-
berculosis comes the announcement
of a strange new cure for consump-
tion by a former minor of the name
of Bryant, who worked in the coal
mine at Bradford and who was con-
sidered as consumptive.Bryant started the breeding of
mice, which are raised in Eng-
land for baking out and feeding pheasants
and there was an immediate and con-
tinuous improvement in health thatled him to suppose the gas of the put-
refied meat upon which he lived the
mice was the cause.He sent for his youngest daughter,
who was in a consumption sanatorium
and in two months she became a robust girl, having gained seventeen
pounds.Bryant now has thirty patients
breathing the gas from the putrefied
meat, with a result that is said to be
excellent.A Bradford analytical reports that an
analysis of the atmosphere showed
that it contained urea ammonia and
trimethylamine which even in a weak
solution destroy microbes in a few
hours of exposure.The fumes, when inhaled, come into
contact with the mucilage bacilli, re-
duce their vitality and may even kill
them without any injurious effect upon
the human organism.Any skin lesion is a temper test.
